**Questions & Answers
(if time allows)**

FORENSIC MENTAL HEALTH

FORENSIC MENTAL HEALTH

Relationship between mental health and criminal behavior.

FORENSIC MENTAL HEALTH

Relationship between mental health and criminal behavior.

Mental health issues may contribute to criminal behavior (ie. impaired judgement, anxiety, impulsivity, erratic/aggressive actions, substance abuse disorders, depression, PTSD, schizophrenia, bipolar disorder, etc.).

FORENSIC MENTAL HEALTH

Relationship between mental health and criminal behavior.

Mental health issues may contribute to criminal behavior (ie. impaired judgement, anxiety, impulsivity, erratic/aggressive actions, substance abuse disorders, depression, PTSD, schizophrenia, bipolar disorder, etc.).

Due to limited access to mental health services and appropriate interventions, individuals with untreated or undiagnosed mental health disorders often come into contact with law enforcement.

FORENSIC MENTAL HEALTH

FORENSIC MENTAL HEALTH

Individuals with mental health disorders are overrepresented within the criminal justice system - studies consistently show higher rates of mental health issues among incarcerated populations compared to the general public.

FORENSIC MENTAL HEALTH

Individuals with mental health disorders are overrepresented within the criminal justice system - studies consistently show higher rates of mental health issues among incarcerated populations compared to the general public.

2017 Bureau of Justice Statistics report - 44% of state prison inmates and 37% of jail inmates reported having a history of mental health problems.

FORENSIC MENTAL HEALTH

Individuals with mental health disorders are overrepresented within the criminal justice system - studies consistently show higher rates of mental health issues among incarcerated populations compared to the general public.

2017 Bureau of Justice Statistics report - 44% of state prison inmates and 37% of jail inmates reported having a history of mental health problems.

Having a mental health disorder does not make someone a criminal.

PERSON CENTERED CARE

PERSON CENTERED CARE

Acknowledges that the individual is at the center of their healthcare journey.

PERSON CENTERED CARE

Acknowledges that the individual is at the center of their healthcare journey.

The individual's values, preferences, and goals should guide the planning and delivery of care.

PERSON CENTERED CARE

Acknowledges that the individual is at the center of their healthcare journey.

The individual's values, preferences, and goals should guide the planning and delivery of care.

Aims to promote a more meaningful and satisfying healthcare experience while improving health outcomes.

TRAUMA INFORMED

TRAUMA INFORMED

Recognize the prevalence and impact of trauma.

TRAUMA INFORMED

Recognize the prevalence and impact of trauma.

Provide supportive and understanding environment with consideration for trauma history.

TRAUMA INFORMED

Recognize the prevalence and impact of trauma.

Provide supportive and understanding environment with consideration for trauma history.

Adopt trauma-informed approach to policies, procedures, and interactions.

TRAUMA INFORMED

Recognize the prevalence and impact of trauma.

Provide supportive and understanding environment with consideration for trauma history.

Adopt trauma-informed approach to policies, procedures, and interactions.

Promote safety, trust, and healing.

INTEGRATED CARE

INTEGRATED CARE

Coordination of behavioral health services with other healthcare and social services.

INTEGRATED CARE

Coordination of behavioral health services with other healthcare and social services.

Recognizes that individuals may have complex needs that require a comprehensive approach.

INTEGRATED CARE

Coordination of behavioral health services with other healthcare and social services.

Recognizes that individuals may have complex needs that require a comprehensive approach.

Individuals receive more holistic and effective care by integrating services across different domains, such as mental health, substance abuse, housing, employment, and healthcare.

RECOVERY-ORIENTED

RECOVERY-ORIENTED

Recognizes that individuals with behavioral health needs have the ability to recover and lead fulfilling lives

DIVERSION

DIVERSION

The process for individuals with mental health and substance use disorders being diverted from the criminal justice system into treatment or alternatives to incarceration.

CONTINUITY OF CARE

CONTINUITY OF CARE

Provide seamless and coordinated services throughout an individual's involvement in the criminal justice system and beyond.

CONTINUITY OF CARE

Provide seamless and coordinated services throughout an individual's involvement in the criminal justice system and beyond.

Importance of maintaining engagement in treatment, providing ongoing support, and facilitating transitions between different settings, such as jails, prisons, and community-based programs.

CONTINUITY OF CARE

Provide seamless and coordinated services throughout an individual's involvement in the criminal justice system and beyond.

Importance of maintaining engagement in treatment, providing ongoing support, and facilitating transitions between different settings, such as jails, prisons, and community-based programs.

Aim to prevent gaps in care and promote sustained recovery.

CULTURAL & LINGUISTIC

CULTURAL & LINGUISTIC

Importance of providing services that are culturally competent and sensitive to diverse backgrounds, languages, and beliefs.

CULTURAL & LINGUISTIC

Importance of providing services that are culturally competent and sensitive to diverse backgrounds, languages, and beliefs.

Aims to eliminate disparities in care and ensure that services are accessible, respectful, and responsive to cultural differences.

CULTURAL & LINGUISTIC

Importance of providing services that are culturally competent and sensitive to diverse backgrounds, languages, and beliefs.

Aims to eliminate disparities in care and ensure that services are accessible, respectful, and responsive to cultural differences.

Ability to communicate more effectively utilizing native language and translation.

PEER SUPPORT

PEER SUPPORT

Utilizing individuals with lived experience of criminal justice system and behavioral health challenges as mentors and allies in the recovery process.

PEER SUPPORT

Utilizing individuals with lived experience of criminal justice system and behavioral health challenges as mentors and allies in the recovery process.

Recognizes value of peer support in fostering hope, building trust, and promoting positive outcomes.

PEER SUPPORT

Utilizing individuals with lived experience of criminal justice system and behavioral health challenges as mentors and allies in the recovery process.

Recognizes value of peer support in fostering hope, building trust, and promoting positive outcomes.

Can help justice-involved individuals navigate the challenges they face and provide valuable guidance and understanding.

SAMHSA – PRINCIPLE #1

SAMHSA – PRINCIPLE #1

Community providers are knowledgeable about the criminal justice system. This includes the sequence of events, terminology, and processes of the criminal justice system, as well as the practices of the criminal justice professionals.

SAMHSA – PRINCIPLE #1

**Community
providers
know...**

SAMHSA – PRINCIPLE #1

- **Points of contact**

**Community
providers
know...**

SAMHSA – PRINCIPLE #1

**Community
providers
know...**

- **Points of contact**
- **Role of the law enforcement officer**

SAMHSA – PRINCIPLE #1

**Community
providers
know...**

- **Points of contact**
- **Role of the law enforcement officer**
- **Understanding the criminal justice system can help community providers facilitate continuous and coordinated treatment and services for justice-involved individuals with mental and substance use disorders, including diverting.**

SAMHSA – PRINCIPLE #2

SAMHSA – PRINCIPLE #2

Community providers collaborate with criminal justice professionals to improve public health, public safety, and individual behavioral health outcomes.

SAMHSA – PRINCIPLE #2

**Community
providers
collaborate...**

SAMHSA – PRINCIPLE #2

With criminal justice professionals to:

**Community
providers
collaborate...**

SAMHSA – PRINCIPLE #2

**Community
providers
collaborate...**

With criminal justice professionals to:

- **Ensure continuity of care and coordination of care to and from incarceration**

SAMHSA – PRINCIPLE #2

**Community
providers
collaborate...**

With criminal justice professionals to:

- **Ensure continuity of care and coordination of care to and from incarceration**
- **Ensure sustaining treatment and supports both in correctional settings and in the community**

SAMHSA – PRINCIPLE #3

SAMHSA – PRINCIPLE #3

Evidence-based and promising programs and practices in behavioral health treatment services are used to provide high quality clinical care for justice-involved individuals.

SAMHSA – PRINCIPLE #3

**Evidence-
based**

SAMHSA – PRINCIPLE #3

Evidence-based programs and practices for mental and substance use disorders should be used for all individuals

**Evidence-
based**

SAMHSA – PRINCIPLE #3

Evidence-based programs and practices for mental and substance use disorders should be used for all individuals

- **Create adaptations to individuals**

**Evidence-
based**

SAMHSA – PRINCIPLE #3

Evidence- based

Evidence-based programs and practices for mental and substance use disorders should be used for all individuals

- **Create adaptations to individuals**
- **Address co-occurring**

SAMHSA – PRINCIPLE #3

Evidence-based

Evidence-based programs and practices for mental and substance use disorders should be used for all individuals

- **Create adaptations to individuals**
- **Address co-occurring**
- **Track outcomes and adjust treatments**

SAMHSA – PRINCIPLE #4

SAMHSA – PRINCIPLE #4

Community providers understand and address criminogenic risk and need factors as part of a comprehensive treatment plan for justice-involved individuals.

SAMHSA – PRINCIPLE #4

Criminogenic

SAMHSA – PRINCIPLE #4

- **Criminogenic risk**

Criminogenic

SAMHSA – PRINCIPLE #4

Criminogenic

- **Criminogenic risk**
- **Criminogenic needs**

SAMHSA – PRINCIPLE #4

Criminogenic

- **Criminogenic risk**
- **Criminogenic needs**
- **Criminogenic risk and need factors are malleable and responsive to intervention**

SAMHSA – PRINCIPLE #4

Criminogenic

- **Criminogenic risk**
- **Criminogenic needs**
- **Criminogenic risk and need factors are malleable and responsive to intervention**
- **Must treat behavioral health, substance use, and criminogenic risk and need factors**

SAMHSA – PRINCIPLE #5

SAMHSA – PRINCIPLE #5

Integrated physical and behavioral health care is part of a comprehensive treatment plan for justice-involved individuals.

SAMHSA – PRINCIPLE #5

**Integrated
Care**

SAMHSA – PRINCIPLE #5

- **Comprehensive treatment plan encompasses integrated physical and behavioral health care**

**Integrated
Care**

SAMHSA – PRINCIPLE #5

Integrated Care

- **Comprehensive treatment plan encompasses integrated physical and behavioral health care**
- **Address increased risk for serious and complex chronic health conditions**

SAMHSA – PRINCIPLE #5

Integrated Care

- **Comprehensive treatment plan encompasses integrated physical and behavioral health care**
- **Address increased risk for serious and complex chronic health conditions**
- **Coordination of medical services**

SAMHSA – PRINCIPLE #5

Integrated Care

- **Comprehensive treatment plan encompasses integrated physical and behavioral health care**
- **Address increased risk for serious and complex chronic health conditions**
- **Coordination of medical services**
- **Includes addressing co-occurring**

SAMHSA – PRINCIPLE #6

SAMHSA – PRINCIPLE #6

Services and workplaces are trauma-informed to support the health and safety of both justice-involved individuals and community providers.

SAMHSA – PRINCIPLE #6

**Trauma
Informed**

SAMHSA – PRINCIPLE #6

**Trauma
Informed**

- **High rates of exposure to traumatic events**

SAMHSA – PRINCIPLE #6

Trauma Informed

- **High rates of exposure to traumatic events**
- **Trauma informed care**
 - **Client**
 - **Provider**

SAMHSA – PRINCIPLE #7

SAMHSA – PRINCIPLE #7

Case management for justice-involved individuals incorporates treatment, social services, and social supports that address prior and current involvement with the criminal justice system and reduce the likelihood of recidivism.

SAMHSA – PRINCIPLE #7

**Case
Manage-
ment**

SAMHSA – PRINCIPLE #7

- **Challenges reentering community from jail - housing, employment, health and behavioral health care (medications).**

Case

**Manage-
ment**

SAMHSA – PRINCIPLE #7

Case Manage- ment

- **Challenges reentering community from jail - housing, employment, health and behavioral health care (medications).**
- **Address social factors by connecting individual to services – offset low quality of life, poor health, and recidivism.**

SAMHSA – PRINCIPLE #7

Case Manage- ment

- **Challenges reentering community from jail - housing, employment, health and behavioral health care (medications).**
- **Address social factors by connecting individual to services – offset low quality of life, poor health, and recidivism.**
- **Issues: Lack of housing, employment and vocational activities, and social support (from peers, family members or both) and untreated substance use disorders**

SAMHSA – PRINCIPLE #8

SAMHSA – PRINCIPLE #8

Community providers recognize and address issues that may contribute to disparities in both behavioral health care and the criminal justice system.

SAMHSA – PRINCIPLE #8

Disparities

SAMHSA – PRINCIPLE #8

- **Disparate access and representation in both behavioral health care and criminal justice system**

Disparities

SAMHSA – PRINCIPLE #8

Disparities

- **Disparate access and representation in both behavioral health care and criminal justice system**
- **Recognize and address:**
 - **Race**
 - **Ethnicity**
 - **Gender**
 - **Sexual Orientation**
 - **Economic Status**

5 STAGES OF SIM

By identifying these intercept stages, the SIM highlights critical points within the criminal justice system where interventions can be implemented to divert individuals with behavioral health challenges to appropriate services. It promotes a collaborative and coordinated approach among stakeholders, aiming to improve outcomes for individuals, reduce recidivism rates, and enhance public safety.

INTEGRATING PRINCIPLES & SIM

Knowledge, Collaboration, Evidence-Based, Criminogenic, Integrated Care, Trauma Informed, Case Management, Disparities

Goal: By adhering to these principles, community-based behavioral health services for justice-involved individuals can ensure that care is effective, person-centered, and addresses the specific needs and circumstances of this population. It promotes recovery, reduces recidivism, and supports successful reintegration into the community.
